Critical Care Professionals, Inc.

Nursing, Respiratory and Allied Healthcare Professionals

Welcome

This packet will introduce you to Critical Care Professionals (CCP) as well as make you aware of communication patterns to facilitate a mutually beneficial relationship.

Communication is the most important aspect of any relationship. It is equally important with your relationship with CCP. Please communicate your availability to the office as soon as possible so that we can arrange assignments for you. After the office receives your availability, we will look for facilities to fill your time. We will then contact you with the facility name. After you accept the assignment, we will contact the facility to confirm the assignment. You will then receive a call from us confirming the shift. After confirmation is made, you must be available for the shift. In the event of illness when you cannot meet the obligation, you must notify the office at least 3 hours before your shift begins.

The Hospital(s) which you are assigned to has the option of canceling your assignment up to 2 hours prior to the start of your shift.

If you are cancelled after that 2 hour period, you will receive 2 hours inconvenience pay. In the event that you are cancelled, the office will make every attempt to locate you an alternative assignment.

Please be advised that for whatever reason you must cancel your scheduled shift within 2 hours (within the 2 hour window it was supposed to start), a two hour fee (late cancellation fee) will be charged to you. This fee will be deducted from your next paycheck.

In the event you are scheduled for an assignment and do not show, CCP reserves the right to terminate this relationship. It is important that we honor the assignments so that the facilities have confidence that we will meet their needs.

Customer service is an important aspect of the services we provide. We at CCP expect our employees to be professional and courteous at all times. If the facilities are not pleased with your manner or performance, they will request that you not be assigned to return. In this event, CCP would be reluctant to reassign you to any of our contracted facilities.

Professional attire is also an important aspect of the image we present. Please dress appropriately for your work assignments.

We hope that we will have a long and mutually prosperous relationship.

I undersigned have read and understand and agree to the above agency modus operand.

HIPAA Compliance

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) mandated regulations that govern privacy, security, and electronic transactions standards for health care information. In August 2002, the Department of Health and Human Services (DHHS) published specific rules governing the privacy of personal healthcare information. These rules are designed to protect all medical records and other health information held or disclosed by entities such as hospitals, whether communicated electronically, on paper or in oral conversations. Hospitals to which you will be assigned must comply with these Privacy Rules as of April 2003. Failure to comply or breach of a rule can result in penalties, including fines and imprisonment.

By signing this document, you agree that:

1. You will abide by each hospital's rules on privacy and disclosure of healthcare information.
2. You acknowledge that it is a condition of your employment with Critical Care Professionals, Inc. that you will abide by each hospital's rules on privacy and disclosure of healthcare information.

Cancellation Policy

When shifts are confirmed, it is expected that the employee will fulfill the commitment unless cancelled by the facility.

Cancellation by the Contracted Facility

1. Facilities who cancel a scheduled shift with less than 2 hours notice will be charged a 2 hour late cancellation fee, and the employee will be reimbursed for 2 hours inconvenience pay.
2. When a facility cancels with more than 2 hours notice, the employee does NOT receive inconvenience pay.
3. Agency has a 15 minute grace period to cancel an employee without giving the cancelled employee the 2 hour inconvenience fee. (e.g. Facility cancels 8 employees at 5pm, and it may take CCP at least 5 minutes or more to reach and notify all of them.)

Cancellation by the Employee

1. When a shift is confirmed, it is expected that staff will fulfill their commitment.
2. In the event of illness or extreme emergency, the employee must notify the office at least 6 hours prior to the start of the shift so that a replacement can be located.
3. Unexcused cancellation can result in the employee being placed on the "Inactive List."
4. If employee cancels scheduled shift within 2 hours of the shift starting, the employee will be penalized a 2 hour late cancellation fee due to the agency. (Facility will charge the agency a late cancellation fee of **2 hours pay which the Agency will then charge to the employee.**)
5. Application to reactivate once on the "Inactive List" can occur only after 30 days and must be approved by the President.

Expectations

Many times we are asked what our nurses can expect from us. We are confident that at Critical Care Professionals, Inc. you can expect the following from our staff:

What you should expect from us:

- Courteous and professional service by our staff
- 24/7 Telephone and office coverage to meet your needs
- Work expeditiously with you to follow through on your new hire process to put you to work as soon as possible
- To provide you with every possible opportunity to work at all of CCP's hospital client facilities
- To contact you weekly to inquire about your availability so as to provide you with as many hospital shifts as possible
- To contact you on a timely basis should a hospital request a change to your scheduled time shift
- To compensate you competitively, accurately and timely on a daily basis

What we expect from our professional workers:

- Provide our staffing office with your availability on a weekly basis
- Work with our staff to constantly update all phone numbers should there be a change as to be able to contact you efficiently
- While we expect and understand that changes can and may occur to your schedule, our expectation is that all cancellations be kept to a minimum.
- Zero tolerance for "no call no shows"
- Work with our staff to make sure that your license and other credentials remain current and updated

CCP understands that by working in different facilities under various conditions that there may be some issues and/or concerns that come up from time to time. Therefore, the following policies are put in place to help counsel a nurse and/or clear up any misunderstandings with the facilities.

Policy for "No call no shows," late cancellations, and shifts booked without going through CCP:

- We have zero tolerance for "no call no shows"; this is grounds for immediate termination.
- If a nurse cancels consistently, then disciplinary action and/or a 2-hour inconvenience fee will be paid by the nurse.
- Any shift picked up or changed in any way requires a call to CCP to make the staffers aware. This will prevent mistakes in scheduling.
- Late cancellations and "no call no shows" require proof of documentation. A friend or relative cannot cancel your shift for you. You must speak to someone in person, not by leaving a message on voice mail.

Do Not Return Policy:

- The facility will call and let CCP know about the problem and/or concern. CCP will request that the complaint be faxed or emailed to us.
- An incident report will be filled out detailing who the nurse was, the date and place the incident occurred, and the type of problem (i.e. clinical, personality conflicts, or no call/no show)
- Nurse will be contacted to discuss problem. Nurse will be instructed to write down their side of what happened.
- Both sides of the problem will be reviewed, and if there is any miscommunication or misunderstanding, then CCP will strive to intercede on the nurse's behalf with the facility.
- If it is determined that the nurse was at fault, then the nurse will be a Do Not Return (DNR) at that facility. Nurse will receive corrective counseling on how to improve their performance.
- If a nurse becomes DNR at three facilities, then the nurse will be placed on the "Inactive List" for a period of six months.
- Application to reactivate once on the "Inactive List" must be approved. Nurse will be placed on probation for 30 days after reactivated.

2006 Hospitals' National Patient Safety Goals

Note: New Goals and Requirements are indicated in **bold**.

Goal: Improve the accuracy of patient identification

- Use at least two patient identifiers (neither to be the patient's room number) whenever administering medications or blood products; taking blood samples and other specimens for clinical testing, or providing any other treatments or procedures.

Goal: Improve the effectiveness of communication among caregivers

- For verbal or telephone orders or for telephonic reporting of critical test results, verify the complete order or test result by having the person receiving the order or test result "read-back" the complete order or test result.
- Standardize a list of abbreviations, acronyms and symbols that are not to be used throughout the organization.
- Measure, assess and, if appropriate, take action to improve the timeliness of reporting, and the timeliness of receipt by the responsible licensed caregiver, of critical test results and values.
- **Implement a standardized approach to "hand off" communications, including an opportunity to ask and respond to questions.**

Goal: Improve the safety of using medications

- Standardize and limit the number of drug concentrations available in the organization.
- Identify and, at a minimum, annually review a list of look-alike/sound-alike drugs used in the organization, and take action to prevent errors involving the interchange of these drugs.
- **Label all medications, medication containers (e.g., syringes, medicine cups, basins), or other solutions on and off the sterile field in perioperative and other procedural settings.**

Goal: Reduce the risk of health care-associated infections

- Comply with current Centers for Disease Control and Prevention (CDC) hand hygiene guidelines.
- Manage as sentinel events all identified cases of unanticipated death or major permanent loss of function associated with a health care-associated infection.

Goal: Accurately and completely reconcile medications across the continuum of care

- Implement a process for obtaining and documenting a complete list of the patient's current medications upon the patient's admission to the organization and with the involvement of the patient. This process includes a comparison of the medications the organization provides to those on the list.
- A complete list of the patient's medications is communicated to the next provider of service when a patient is referred or transferred to another setting, service, practitioner or level of care within or outside the organization.

Goal: Reduce the risk of patient harm resulting from falls

- Implement a fall reduction program and evaluate the effectiveness of the program.
